PACKING TIPS

- For 100% waterproof protection, roll the top a minimum of 3 rolls.
- Do not overstuff or over-load Possibles Pouch. The challenge should be to pack as little as necessary to be safe, comfortable and self-sufficient. Go light. Go fast. Go far.
- Pack all sharp and/or hard items inside a protective layer. For example, create a sleeve for tire irons from a section of old inner tube, pack tools in rolls and wrap other hard items in clothing.
- Visit our website at GiantLoopMoto.com for more tips from riders and instructions.

CARING FOR POSSIBLES POUCH™

- Keep away from hot exhaust.
- Avoid sharp metal edges. Protect webbing with inner tube sleeve to prevent abrasion.
- Secure loose webbing ends when riding. Check and retighten all connections at each stop.
- Avoid exposure to insect repellants containing DEET.
- Hand wash Possibles Pouch with mild soap (like Simple Green), rinse with clean water and air dry. DO NOT MACHINE WASH OR DRY.
- Prevent mold, mildew and funky stench by unpacking wet gear, rinsing thoroughly with fresh water and airing dry.
